The New Bedford Bar Association has a schedule of fees which is set at a minimum. An attorney cannot go below the minimum, but he can charge above the minimum. In the Gifford case Mr. Black did charge the minimum.

On 6/28/66, Mr. Paul Ross of Associated Engineers of Boston, working on Helfand Dairy plans, on being called from this office, told us plans should be approved by Department of Public Health in July - gave no definite date. Mr. Fred Dayton, Morton Avenue, N.D. called Mr. E.M. Huckins after last week's Board meeting to ask what transpired about his situation. He was informed that Morton Black had called to ask this Board to reconsider, which had been done by Mr. Huckins, with no change in their decision. Mr. Dayton was informed that if he was in disagreement with our estimate of the seasonable height of ground water that the Board recommends placing a section of perforated orangeburg pipe in the ground and measuring in March and April. Mr. Dayton agreed to place the pipe on Sunday, December 17th. Mr. Huckins went out to Morton Avenue on December 18th to check and the pipe had not been placed there as yet. This was discussed at tonight's meeting and the Board decided placing the pipe was Mr. Dayton's responsibility. This was just a general discussion.

A sand catcher was installed by the D.P.W. on Rockland Street and Forest Lane, S.D. within 12' of the sewerage system of Russell Perry, whose sewerage system had been installed previous to the sand catcher. The Board instructed the clerk to send a letter to D.P.W. informing them that this is too close.

Mr. & Mrs. Manuel Botelho, 167 Sharp Street and Mrs. Lydia Botelho, daughter-in-law, met with the Board to discuss the problem on their property of water entering their cellar, since the vacant lot next to them is being filled in. Also a shack, Mr. Botelho keeps his lawn mower and other tools in, are ruined from water. Rats are prevalent in the area. Mr. Medeiros is filling in the lot for J.F. Martin. The Board thought a trench toward the wooded area might alleviate the situation. Later in the evening, Mr. J.F. Martin met with the Board

It was a majority vote of the Board to send Mr. David Lassister, 594 Division Road, N.D. a letter to vacate his trailer due to lack of proper sewerage facilities. A period of thirty days was so voted by the Board.

The Board of Appeals has instructed Dartmouth Town Counsel to take action on the landing of this trailer after permission by denied by the Board of Appeals.

There is a swamp on Fern Street owned by Joseph Martin. This area of land is being filled in from the street back and this is pushing the water onto the Botelho property. In the winter the water gathers in front of the Botelho home and freezes over creating a hazardous condition. Much of this water remains stagnant.

On 12/6/67 Mr. E.M. Huckins investigated this complaint. There was a mess of junk, rubbish, rats, and stagnant water. The cesspool on the Botelho property is flooded and the lawn mowers are under water. It appears this is a Board of Health problem.

It was a majority vote of the Board to have the Botelho's and Joseph Martin present at the next meeting.

Mrs. Phyllis D. Mercer, Community Nurse, attended the funeral of her nephew on Monday 9/8/69. She inquired if she was to be paid and was told it would be discussed with the Board. Mrs. Piva, clerk, called Isaac Manchester, Jr. of the Personnel Board, informed of the request and advised him that Mrs. Mercer is continued part-time employee and would this make a difference. Mr. Manchester stated that bereavement leave is clearly specified under Personnel Board rules and regulations but the Board could make their own decision on the payment. Mrs. Piva discussed this matter with the Board on 9/15/69 at her meeting but the full Board was not present so it was to be discussed at the meeting of 9/22/69. This payment is for three hours only. After it was discussed, the Board unanimously agreed to pay her for the three hours this time but should there be another time, it will have to be made up in time.

Mr. & Mrs. ~~Mary~~ Raphael met with the Board per her request to discuss the dump on her property on Lots #310 - 312, Wordell Street, S.D.. Mrs. Raphael stated she pays taxes on this property but does not dump there so she doesn't feel that she should clean someone else's debris. The Raphaels live in New Bedford. Mrs. Raphael said she would see if she could get a neighbor in the area to watch and see who is doing the dumping.

The Nimitz Street plan for Castle Homes, Inc., Lot #95 and part of #94 was briefly discussed. The elevation will be 5" higher than John Brooks' property which abuts it in the rear. The Board also asked that the clerk call Mr. Brooks to come in at the next meeting, as he requested to be contacted when this plan is discussed which will be at this next meeting.

A communication from Isaac Manchester, chairman of the Personnel Board, was received in this office explaining their opinion on a part-time employee's service. He explained that they usually allow a percentage of the part-time employee's work week to count towards vacation leave and seniority which is on file in this office.

An executive session was requested by the Board to discuss with Mr. Huckins his request for a step up in his classification. Mr. Huckins offered to leave while the Board made their decision. After discussing the situation, the unanimous vote of the Board was to have Mr. Huckins stay on S-9, Step 3 because they thought this classification was a substantial raise in pay and the budget does not allow for any more increases. Mr. Huckins was called back in and informed of the Board's decision. Mr. Huckins asked the Board if this was fair and the Board answered that they thought this was a fair decision because each Inspector was doing the same work and they had not established any seniority status. The Board requested that the Personnel Board be notified of their vote.

On 9/4/69, Mr. Rubuen Goldstein called this office pertaining to a dump on Wordell Street, S.D. He said he had his land surveyed and the debris in question is in the street and not his land. If the Board desires, he will meet the Board on the property to show

The building is a 100' from nearest neighbor who sold him the land. He will build a new corral right away and will apply for a building permit for a new shelter in the Spring, if his children still want to keep the pony. Mr. Stevens recommended. The Board considered Mr. Steven's recommendation and voted to allow permit for one pony.

On 9/8/69, Mr. Joseph Mello, owner of Chippy's, St. John Street, S.D. called this office to say he was getting a big container from John Frade to put everything in. When this comes, he will hire a steamer and steam clean the whole area. Seagulls cause a lot of this mess. Wants the Board to call him whenever they see anything like this. He is willing to cooperate but just give him a little time to get this container from Mr. Frade.

It has been established H. Goldstein and Sons, 123 Hixville Road, N.D. and Mary C. Martin % Mary Raphael, 169 Emerson St., N.B. owned the lots on Wordell Street, S.D. which is being used as a dump.
